JUPITER

WANT A BIG VACATION?
GO TO THE BIG PLANET JUPITER!
By: Hayley Eastman

SITES TO SEE!

HERE ARE SOME SITE YOU MAY WANT TO SEE:
THE RED SPOT: BUT BE CAREFUL THE RED SPOT IS A HUGE STORM YOU DON'T WANT TO GET SUCKED IN!

WE WILL ALSO BE GOING TO SOME MOONS YOU WILL WANT TO BRING AN AIR TANK SO YOU CAN BREATHE

Bibliography
websites
NASA kids
National Geographic
Zoom Astronomy
Books
Jupiter: King of the gods, Giant of the planets
By; Franklyn Barnley

Things you need to bring:

- Water
- Food
- Oxygen tank
- Space suit
- Camera
- Sun screen of S.P.F 3,500
- Lots of money
- Shorts and tank tops to stay cool

Fun facts:

~ Jupiter has 16 moons that measure in at least 6 miles in diameters
~ Jupiter’s day is 9 hours and 55 minutes long
~ Like Earth, Jupiter has different seasons
~ A compass needle that points north on Earth would point south on Jupiter
~ Jupiter also has rings but they are very faint
~ You can see Jupiter from Earth
~ The red spot on Jupiter is actually a big storm
