

Things to bring are a jacket. Lots of clothes to wear.

Things to do for fun are:

Like moon ball or you can try meatier madness. For parents we have a pool and a day care. We also have a five star hotel. You won't find a better place so come on down.

SATURN

By: Damien Allain P-6
4/2/08

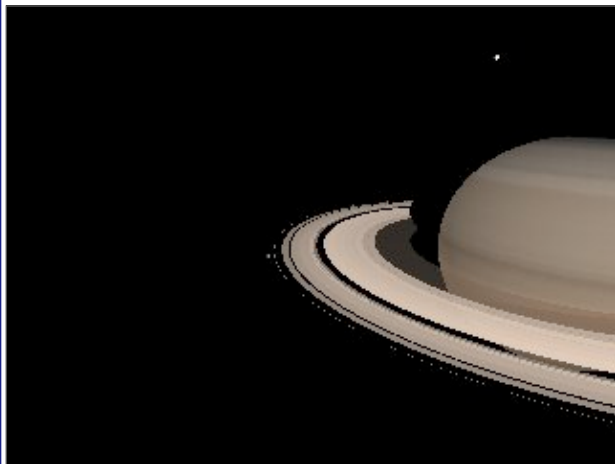

come
and Sat-ur-n
right in our
town!

Saturn is the 6th planet from the sun. The diameter is 74,898 miles.

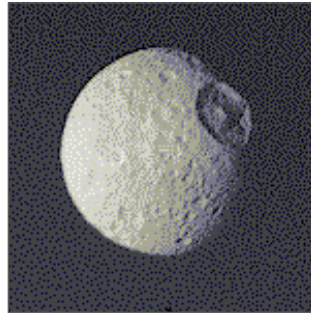

The gravity is 1.08 times the gravity on earth.

The mass is 95.18 times earth's mass

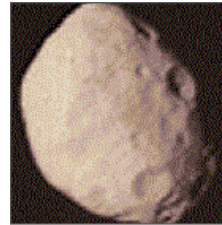

Saturn has 33 moons 18 are named.

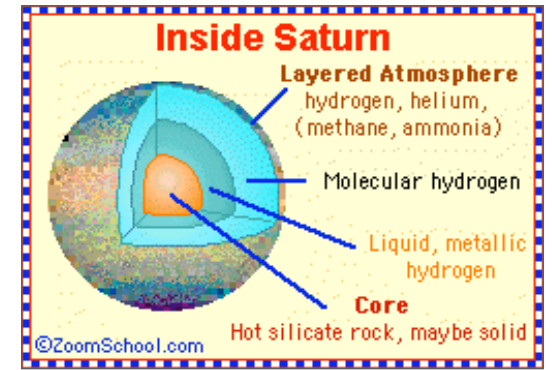

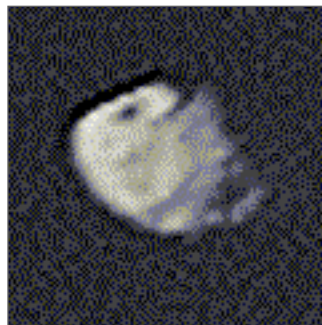

Mimas

Janus

Pandora

The core is hot silicate rock, maybe solid. Liquid, metallic hydrogen maybe found in the next part. Then molecular hydrogen. The top is a layered atmosphere.
