How to get here

First you go to your local
rocketport there is one in
every country. You get on
and you will be flash
frozen (it takes a few
years to get there). Then
you will be reheated on
Venus this flight will cost
a hundred dollars per
person .

Stuff to bring

- Spacesuit
- Money
- Bathing suits
- Warm clothes
- Pets

Learn about our planet

- Venus has no moons
- Venus is the second planet from the sun
- the core and crust is made of iron and nickel
- the atmosphere is made of sulfuric acid
- an 100 pound person would weigh 91 pounds on Venus
- one day on Venus is 293 earth days
